halment on Union street, where we noticed the most tasty assortment of Head and Neck ornamen's, and Dressing, we have ever seen in thecity. We understood that Mrs, C. had just returned from the Eastern cities, where she had procured all the latest styles of fashiopable head-gear. Her establishment appeared to us really neat, beautiful and elegant. Ludies who are in need of trimming in that particular line, would do well to call at Mrs. C's and get ther outward beauty more elegantly embellished.

TENNESSEE MARINE AND FIRE IN-URANCE COM-PANY .- At an election held at the office of this Company, on Monday 1st of October, 1855, the persons hereinafter named were duly elected Directors for the ensuing year, viz : John M. Hill, Jac. Cerrey, G. M. Fogg, Alexander Allison, R. H. Gardens, Jos. Vanix, Thompson Anderson, F. A. Owen, James Ellis, N. E. Alloway, and Wm. S. It will be seen from the above list that several

of the old Directors were not elected, they having other business to transact, declined a re-election, The new Board met on Tucaday, the 2d October, 1855, and adopted a resolution dispensing with the office of Clerk to the Company, and requiring the President and Secretary to perform the same duties, heretofore performed by the President, Scoretary and Clerk.

John M. Hill, Esq , having tendered his thanks to the Board for the confidence reposed in him, in checting him President for a series of twelve years, reques ed that his name should not be used before the Board as a candidate for re-election to the office of President; whereupon the Board proceeded to the election of President, when upon counting the bollots it appeared that Jos. VAULE, Esq., was unanimously elected President for the ensuing year. A. W. BUTINE was then unanimously elect-

Mr. Alloway then offered the following resolution, which was unanimously adopted:

Res lead. That the thanks of this Board be unanimously tendered Jons M Hitz, E.q., for the able and a partial manner in which be has discharged the duties of President of this Company for the past twelve years.

BIENNIAL STATE PAIR-SECOND DAY. TUESDAY, Oct. 2.

Yesterday morning the busses, backs, buggies, carriages, &c., made one grand rush for the Fair grounds. The day promised to be a beautiful one, but towards noon the sky was o'ercast with clouds and the sir was quite chilly. Notwithstanding the cold, there was an increased number on the ground. The ladies (God bless them) were there in large numbers, adding, of course, much interest to the occurren. The display of articles was very large -much larger than the previous day. To-lay was set apart for the exhibition of-

Casinet and carpenters' work, lumber, hats, shoes and boots, leather, agricultural implements and useful machines, silver and other ware, mashle and otheratone work, carriages, buggies, &c., iron castings and manufactures, minerals of Tennessee, preducts of the field, tobacco, cotton, &c.; products of the orehard and garden, flowers, the dairy, poultry, ham, bread &c.

Nearly every department of which was well rep-

There were several entries of fine and coarse boots and short, among which were specimens from the alon of D. Wilter, Church street, which were awardel's pressum.

There were but few cottles of printing, but the few that were entered we e of an extraordinary

Carmages, Brooms, &c.

There were several ectries, the most prominent of which were from the manufactories of Me ar-Cram & Shapherd, of Nashville, and Messes Cross & Kuhn and Messis, Sarver, Bro. & Co. of Columhis. The hoggies exhibited were the fluest we ever saw. The competition between Messrs, Cram & Shapherd and Sarven, Bro. & Co., was so close the? premiums were obliged to be given to both. We were glad such was the case, for they both deserved one. There will be no farther use for sending North for any kind of carriages, for Tennessee now mands unrivalled in the manufacture of them.

There was a fine display of ruits-apples, pears paper &s, of every variety. Dr. Fanning exhied more varieties of apples than we supposed was in Tonnaisse. The Doctor has been doing a lating linsingers this reason in his orchard, as well as Games.

In this department there was an ordless variety of call ages, possibles, carrots, tornips, beets, onions, &c. The promiums offered in this department were well out sted by several gentlemen, who have done thems lives much credit in the rai-my of So many Time vegetables.

Kentucky Ciry .- We had the pleasure yesterday of a visit from Capt. C Jennings, one of the engineers up to the Mobile and Onio Ratiroad, who left with us a plan of Kentucky City, and a map appended thereto, embracing the vacious States that mite around the mouth of the Ohio, and showing the manner in which the several radroads that are now being constructed radiate from this new centre of trade

We have looked at the facts suggested by th contemplation of the map prepared by Cap. Jennings, and have reflected upon the effect likely to se produced by the union of so many rivers and so many railroads at any one point, and Kentucky City seems to have claims upon our confidence far surpass no any we have met with.

It's manifest that the citizens of Charleston and Savannah, and all the country through South Cardir a, Georgia, and Alabama, have been for years Pressing their road onward to the Mississippi -First, it was amounted to have reached Chatta-Booga, then Nashville, and now it is seeking a unction with the Mobile and Onio road, only a short distance inland from Kentucky Cuy. So also the city of Mobile, and the States of Alabama, Mississippi and West Tennesses are, with every nevere strung, pressing their road to the same

Now, what is it that these Southern States are seeking, through the se mediums of trade? Clearly, they seek to enter the market with New Orleans and compete for the vast products of the Mississip pi valley that have bitherto flusted on the bosom of the Great River to the only Southern market attainable by boats. Now, may it not be that this contest for the trade of the West must take place at Kentucky City, because there all the rivers and

all the railroads will meet? But in the meanwhile, cannot St. Louis perceive that, by means of these new arteries of trade, the commerce of a vast territory is opened up to her, which, by proper exertion, she may now seize and forever retain? She has the Mississippi river—her railroads through Illinois, and can soon have the Iron Mountain road all withing her own borders, by which several means her manufactures, and her merchandise, and the products of the country accumulated here, can be put upon the wharves at Kentucky City at less expense than from any o her rivals. That this vast territory, penetrated by so many roads running southwardly and terminating on the bank of our own river is, by giving the benefit of its trade, destined to enrich some city, we think is most manifest. Let not our citizen neglect the golden opportunity.

All this the proprietor has a right to say, for it has done all this for bin. At the age of thirty-seven he was as grey as the man of seventy, and his hair nearly all fallen off; but he now has an abandant crop, and no person would ever imngive that he ever had a grey hair , and his hair is as woft and phabic as though it had been recently ciled. This is the an isolated case, it has done the same for many others, as the following certificates abundantly prove.

St. Parts, Jan 2, 1855.

Prof. O. J. Wood—Dear Sir.: Unsounded 4 send you Fro. O. J. Wood—Pear Ser; Unsouded a send you this certificate. After being nearly hald for a long time, and having tried all the hair restoratives extant, and having no faith in any, I was induced, on hearing of yours, to give it a risal. I placed myself in the hands of a barber and had my head rubbed with a good stiff brush, and the and hid my head rubbed with a good stiff brush, and the Restorance then applied and well rubbed in till the scalp was all a glow. This I repeated every morning, and in three we as the young hair appeared, and grew ripidly from Angles had up to the present time, and is now black, thick and strong—soil at a pleasant to the touch, whereir be orest was tursh and wiry, what little there was of it, and that fittle was disappearing very rapidly. I still use your feestorative about twice a week, and stall soon have a good and perfect even of har. Now I have read of these your restorative attent twice a week, and said some have a good and perfect crop of hair. Now I have read of these things - and who has not? - but have never hitherto seen any case in which any person's hair was ready benefited by aid of the hair tonics, de, of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others, and it leads to be a black and of control hair from thoughout the Terrialready has a large and general sale throughout the Territory. The people here saw its effects and here confidence in it. All which are used it here will coincide with the in what I have written. The supply you sent mass the wholes are agents of the Territory is already exhausted, and daily inquiries are made for it. You deserve credit for your discovery. I for one return you my thanks for the benefit i has done me, f r I cerumny had despared lang, long ago

has done me, first certainly had despared the control of ever effecting any such result. I congratulate you that your firsture (and a large one) is already made.

Yours, hastily,

Carly III, June 27, 1883. I have used Prof. O. J. Wood's Hair Kestorative, and have admired its wonderful effect. My hair was becoming as I thought, prematurely gray, but by the use of his Resdoubt permanently so. SIDNEY BREESE,

BROOKFIELD, Jan. 12, 1855.

Prof. Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say that its effects has been excellent in removing inflammation, conduciff and a constant tendency to itching, with which I have been troubled from suitdhood, and has also restored my hair, which was becoming gray, to its original color. I have ased no other article, with anything like the same pleasure J. K. BRAGG 114 Market Street, St Louis, Ma., March 8, 1855.

Dear Sir; I am doing an extensive travel in the West and South Western States, as a General agent for Adams' American Liniment, and would be glad it you would favor me with accuminment of Piol. Wood's Hair Restorative, as I feel as used that I can introduce it in many places where it is not known, as my own head is a nying testi-menty of its valuable properties, in restoring hair to its natural color. I am forty years old, and my mair was al-most white but after using three half pint bottles, my hair is a bounded where will was at egateen, and much imis as beautiful auburn as it was at eignicen, and much improves in appearance, and I would not be without a bottle or hand, for the price of ten. I should be glad to attend to aby matter that is connected with the Hair Rest ra-tive. I have been for thirden years engaged in the same business, and will be glad to hear from you soon.
